1 Hello World

Hello world! Testing some math $x = 3$... How about some more complicated math?

$$F(g \circ f) = F(g) \circ F(f) \quad \text{(defn. of functor)} \tag{1}$$

And this is what verbatim outputs

```
map :: (a -> b) -> [a] -> [b]
map _f [] = []
map f (a:as) = f a : map f as
```
